

Classified Telephone Directory
JANUARY 2024

All advertisements for the sale, rental, financing, appraisal, and insurance of residential properties is subject to the Fair Housing Act, which generally makes it unlawful to make or publish any advertisement that indicates any preference, limitation, or discrimination based on race, color, religion, sex, national origin, handicap or family status. Northern Directory Publishing (NDP) will not knowingly accept any advertising for the sale, rental, financing, appraisal or insurance of residential properties that include any unlawful preference, limitation or discrimination.

The Yellow Pages are published for the benefit and convenience of ToledoTel subscribers by NDP. Each business subscriber is given one listing under one general classification for their main listing number without cost. ToledoTel and NDP assume no responsibility or liability for errors or omissions. Errors or omissions will be corrected in the next issue, if reported by letter to NDP. In no event shall liability exceed the amount paid to NDP.

To request to be removed from the ToledoTel Directory distribution please call Northern Directory Publishing at 800-761-5234 or online at www.yellowpagesoptout.com.

Alder Lake is a 7 mi long reservoir on the Nisqually River in Eatonville, Washington . It was created by the construction of Alder Dam by Tacoma Power in September 1944. At the very eastern end of the lake is the town of Elbe, Washington. The name of the lake recalls the former small town of Alder, which was flooded in 1945 by the impounded water of the lake and disappeared

1919 was the celebration of the first Cheese Days put on by members of the Cowlitz Valley Cheese Association. These dairyman joined together to market their cheese and in June met to pass out the first checks from cheese sales. They had a little get together and all had such a good time that they decided to make it an annual event and to invite local citizens. Cheese sandwiches were served at the first Cheese Days and they are still served (free of charge) at the Presbyterian Church during the annual Cheese Days celebrations.

At about 2.4 miles, Ape Cave is the third longest lava tube in North America. It formed nearly 2000 years ago from lava streaming down the southern flank of Mount St. Helens. As the outer edges cooled into a hardened crust, the inner molten lava was able to drain away before it hardened, leaving behind a tube.

Allison was bawling, she turned to me and said, ‘Mom, I got a D.’ It was the first time she called me ‘Mom.’

Lisa, adopted 16-year-old Allison
